RE: MB Docket 10-56

Dear Chairman and Commissioners:

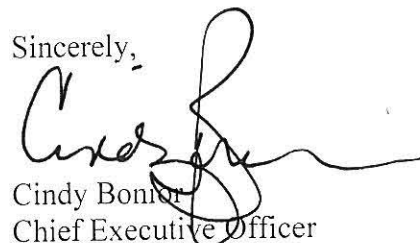

Throughout the years, television stations like KNTV have been excellent partners with our group and others in the non-profit community. The station devotes significant resources to public service and therefore has the ability to inform large numbers of viewers.

Most recently, KNTV partnered with Leadership Fremont, our Chamber's leadership training program, to publicize its class project at the Child Abuse Listening, Interviewing and Coordination Center ("CALICO"). The project included completely renovating one of the non-profit's two interview rooms so that it's more appropriate for teens, as they have unfortunately seen an increase in abuse in this age group.

KNTV was integral in promoting this project which served to increase the awareness of the enormous trauma and damage inflicted upon children who are victims of violence. In addition, KNTV's coverage helped create a greater understanding of the importance of establishing the precedence of the needs of victimized children in a supportive environment.

We support the proposed Comcast/NBC joint venture because it will result in stronger local NBC stations and enable those stations to continue to provide this valuable community service to residents and non-profit organizations.

Sincerely,

Cindy Bonior  
Chief Executive Officer
